"I'm no linguist, but I actually feel like I learned some things in this course—real, tangible... approaches to language!"

“ ...[t]his course was much better than most literature courses I have taken during my program. I'm not a linguistic student, but I found that this course was very accessible to me... I've gained a lot of practical knowledge from this class that I would not have otherwise, and I don't think I can say that for many classes that I have taken. ”

"Dr. Braver is great. He teaches us a LOT without making the course an unnecessarily difficult and stressful experience."

"I feel as [if] more materials to help outside of the zoom lectures could have been provided."

### **Principles of Language**

(Hybrid online/face-to-face)

"Dr. Braver is a wonderful teacher. The course was quite tough but he was patient and very supportive. I enjoyed the class."

" Dr. Braver is a fantastic professor because he uses multiple points of access for the content. Linguistics is a difficult subject, and our class has many diverse learners, yet Dr. Braver's pedagogy was so good that everyone had what they needed to engage with the material. "

"The best teacher/professor I have ever worked with."

## Spring 2021

### **Introduction to Language**

(Hybrid online/face-to-face)

"It was very easy to learn in the class due to the way he taught us. The slides were super helpful and he was a very nice teacher. The only thing I would change about this course is putting the slides on blackboard so we have more material to study for tests."

“ Professor Braver is 100% the best professor I have had. He never fails to make class interesting and enjoyable, which I appreciate greatly. This was my favorite class I have ever taken and I would recommend it to anyone who is looking for an English credit class. ”

“Dr. Braver is a fantastic instructor. His lessons match up with the tests. I would ask if he could slow down just a little bit. Often times, students are still taking notes while he changes slides.”

## **Fall 2020**

### **How Language Works**

(Online)

“Although the subject in the class was not my preference I learned to like it (somewhat) thanks to Dr. Braver he made the material interesting! ”

“ This is the only class this semester that I am glad I took on Zoom. Dr. Braver did a really good job at engaging with us through Chat and at noticing our questions. It was really nice to have such a technical class on Zoom because I could see the powerpoint, respond quicker to questions, and have a handout open in another [window]. ”

“I really enjoyed this class. Its difficult to conduct a class thats three hours online. I think it was a learning process for us all but the pacing of our course was challenging to keep up with due to how much material was being covered each class. However, I thought that Dr. Braver did a wonderful job and was always more than willing to help out and offer his office hours for extra assistance.”

### **Language in a Multicultural America**

“Dr. Braver is organized, passionate and inclusive. He is a superior-quality moderator and fosterer of discussion. It was a joy to come to his class every day. No matter what each persons different views were, he made each of us feel welcome and accepted.”

“Thank you for being a proud ally for LGBTQIA+ students. The way you wove objective truths related to the LGBTQIA+ community into the curriculum was inspiring and taught me a lot. You are an example of someone \*actively practicing\* allyship, and that is impressive.”

“ The class was great and the discussions we had were ones to remember as they made you see everyones differing opinions. Cant want to take another one of his classes in Fall! ”

### **How Language Works**

“Professor genuinely made me want to go to class and learn new content”

'I really loved this course! Professor Braver conducts his lectures in a very professional yet engaging way. I can tell that he is very passionate about the subject matter that he teaches, which makes the course all the more interesting. I honestly did not expect to enjoy this course as much as I did; I will gladly recommend this course to anyone who needs this credit!'

“ This instructor, Professor Braver, is one of the best and most enjoyable instructors I have ever had. Many classes have subjects which are enjoyable to learn about and make it worthwhile to return to the class. But not many classes have a professor that makes returning to the class worthwhile. ”

## **Fall 2019**

### **Phonology**

(Hybrid online/face-to-face)

“ Dr. Braver was an exceptionally student-focused instructor. In crafting the material for the course, it was obvious that he considered and incorporated a variety of teaching strategies to accommodate a diverse group of learning styles. He shared his expertise in a way that allowed me to soak in even the most abstract concepts of phonology. ”

“Everything was perfect; I like the handouts dr. Braver makes, and his way of teaching is fantastic.”

“I suggest that the course cuts down the number of questions per each assignment... The fact that the assignments took too much time has adversely affected the extra reading and research required for the course. After all, working with Dr. Braver was a valuable experience this semester.”

### **How Language Works**

(Hybrid online/face-to-face)

“Dr. Braver is a great teacher. I thoroughly enjoyed well.”

“ I was nervous to take this course... because it is a bit of information that can be hard to grasp. However, the instruct[or] is very knowledgeable and an exceptional professor within his field...I liked that you truly had to stay engaged to his content in order to be successful and it wasn't a free ride for those who did not truly earn it. ”

### **Phonology**

“Even though I was constantly worried about understanding the course matter, he always ensured that I knew what was being discussed. Even though linguistics is very difficult for me, I feel like he helped me understand everything and made the course very manageable.”

### **Language in a Multicultural America**

“Professor Braver is a well rounded and engaging teacher. He seems to make even the most dry subjects bearable. I would most certainly recommend him to another student.”

“ Words cannot explain how grateful I am to Professor Braver. He is an excellent lecturer, mentor, and person in general. He made learning a topic that was new to me absolutely fun and enjoyable. He is also very understanding when it comes to personal conflicts outside of class that may conflict with his assignments. ”

“I like the way the material was presented and how the class was run. I thought the homework assignments were good ways to test how well the students learned the material. I also enjoyed how much class participation was asked for. The only constructive criticism I have is that sometimes the class would go to fast and it was hard to take efficient notes.”

“ I did not expect to like this class and it was one of my favorites. It was really informative and I learned a lot about language. ”

## **Fall 2018**

### **Structure of Sign Languages**

(Hybrid online/face-to-face)

“Fascinating class and well organised. I think the work load is appropriate and beneficial.”

“ His offering of such a topic which normally goes unnoticed in several other institutions of higher education is something worth acknowledging. His presentation of the subject matter is so organized and scaffolded... In class, as much as he shows makes his scholarship available, he never forget to imply that he is human just like us and who cares about us... Wish we had 10 Bravers in the department. ”

“Dr. Braver does a great job at breaking down linguistic terminology. I had no experience in linguistics before this course, and thanks to Dr. Braver, I was able to grasp the concept and apply it to the course.”

### **How Language Works**
