	<b>Question: Distance Comments</b>
Braver	Dr. Braver is very kind and patient when explaining the concepts. Some were difficult but he is willing to work with his students and explain. There were no problems with the distant learning.
Braver	Dr. Braver was very nice! I love that he would always check up on us and make sure that we are okay. He was always understanding with us students and he made sure to ask us if we understood everything and that his office hours were available. Although the subject in the class was not my preference I learned to like it (somewhat) thanks to Dr.Braver he made the material interesting! Thank you for everything!
Braver	I really enjoyed this class. Its difficult to conduct a class thats three hours online. I think it was a learning process for us all but the pacing of our course was challenging to keep up with due to how much material was being covered each class. However, I thought that Dr. Braver did a wonderful job and was always more than willing to help out and offer his office hours for extra assistance.
Braver	This is the only class this semester that I am glad I took on Zoom. Dr. Braver did a really good job at engaging with us through Chat and at noticing our questions. It was really nice to have such a technical class on Zoom because I could see the powerpoint, respond quicker to questions, and have a handout open in another slide. This class should always be taught online in my personal opinion. Dr. Braver is also extremely helpful and good at reteaching material until everyone understands it.
Braver	I thoroughly enjoyed this class and Professor Braver did a great job with incorporating technology into the class! Would have to say this is the best distance learning class I have ever taken.
